

Year 5 Summer Term

Welcome back to your final ½ term in year 5, can you believe that you soon will be year 6?

Below is some information for parents and children in year 5.

Google classroom

The work you have been producing has been of a high standard and the teachers have enjoyed looking at handed in documents.

The google classroom will change from Tuesday 9th June, as we will have many of our year 6 pupils back in school.

We are on a training day on Monday 8th so NO work this day.

Where do I find my work?

You will go on the classroom as normal and you will see that the work is under new headings.

Year 5 Maths

Year 6 Maths

Year 5 English

Year 6 English

You need to click on your year group to find your work. The teacher planning the work is doing this for ALL year 5. Each week you will have 5 English and 5 Maths. Some days there will be tasks set for different groups so keep a close look out for which task you would complete.

What other work will be provided?

There will be 4 other subjects offered each week with one lesson to be completed each week.

Science, Art, Current affairs and Geography.

What if I run out of work and want to do more?

The link below is full of great lessons that have been provided by teachers across the county so IF you want to do more take a look at it.

<https://www.thenational.academy/online-classroom/schedule>

Where would I find other ideas?

On the school website under 'parent resources' there are a number of links and ideas that you might enjoy or find useful.

Is there anything that will really support my learning for when I return to year 6?

YES – Reading everyday – being confident with my x tables to 12x12 – watching Newsround – exercising each day

My top tips

- Set a time each day to do each bit of work BUT make sure you are having breaks.
- Limit console time and try something new, some challenges I've seen include:
 - Kick ups with a ball – how many can you do?
 - Research and plan a meal from a different country
 - Learn to count to 10 in 3 different languages
 - Learn 20 countries, their flag and their capital city
 - Create a quiz for your family
 - IF you have space design an obstacle course for your family, time them and create a winner board
 - Write a letter to school telling us something you are looking forward to about year 6 (when we eventually return).
 - Research and write a report/presentation about a period of history that you find interesting or have always wanted to know about.

- Interview your parents about their time at primary school, create a chart comparing the similarities and differences to your time at primary school.
- Using materials your family are going to throw away, create a piece of art representing: an animal, a building, a place or a feeling.

Stay safe and hopefully we will all see each other again soon

Miss Lee
